INTRODUCING A NATIONAL PROJECT MANAGEMENT APPRENTICESHIP

ELECTRI International and **American Apprenticeships Work** have partnered to offer a national Project Management Apprenticeship program! This initiative addresses the growing demand for skilled project management professionals in the electrical industry and beyond.

The enhanced national program will provide comprehensive training, hands-on experience, and mentorship in project management, equipping participants with essential skills to excel in the industry. By integrating industry-specific education with practical training, apprentices will gain valuable insights and real-world experience.

CONCENTRATE ON BUSINESS GROWTH— WE'VE GOT THE TRAINING COVERED.

WHICH PROGRAM IS THE BEST FIT FOR YOUR CHAPTER?

State-Registered Project Management Apprenticeship Program

Managed by the NECA Chapter

- Personalize your apprenticeship program to meet your contractors' needs.
- Navigate intricate state apprenticeship systems and comply with state regulations.
- Master compliance for registered programs.
- Recruit and hire PM apprentices.
- Track apprentices' progress on training hours and related instruction.
- Provide mentorship and on-the-job training.
- Keep training aligned with business evolution.

National Project Management Apprenticeship Program

Managed by ELECTRI

- Enroll in a turn-key national program:
 - Structured apprenticeship training.
 - Personalized coaching.
 - Technical and business skill instruction.
 - Full DOL compliance and certification.
 - Onboarding support.
- Simplified registration steps.
- Consistent nationwide standards.
- Strengthen data, visualization and interpersonal skills among teams.
- Recruiting support to find qualified apprentice candidates.

ABOUT AMERICAN APPRENTICESHIPS WORK

American Apprenticeships Work (AAW) is a modern apprenticeship company that transforms the careers and lives of individuals through our innovative approach to on-the-job learning.

AAW supports American employers by creating programs that meet a rapidly growing need to fill technical roles in a variety of industries with a specific focus on increasing diversity in the workforce.

America's employers estimate their demand for skilled tech labor to be 10x of what is available on the open market. That's why they work with AAW to build and transform talent with apprenticeships that work.

QUESTIONS & ASSISTANCE

If you have questions about the program transition, please reach out to Anna Jochim at Anna.Jochim@ELECTRI.org or 202-449-9657.
